

A robust, multi-purpose negative working printing plate

:Zenith N555

:Zenith N555 for optimum press quality and performance over a wide range of press conditions.

- Very fast clean up.
- Fast and simple processing.
- Easy plate cleaning.
- Short exposure time.
- Low processor chemistry requirements.

The :Zenith N555 offers an inherently wide press latitude. This allows the plate to work in a variety of different applications from the largest newspaper or commercial web house to continuous stationary, packaging, metal printing or the smallest sheet fed printer.

:Zenith N555

Function	Specification
Plate Type	Electrochemically grained and anodized aluminium, with a diazo based coating
Gauges	0.15, 0.20, 0.30, 0.35, 0.40 mm
Imaging Resolution	Approx. 2% - 98% at 150 lpi
Image Colour	Blue-green
Processor Type	All standard processors
Processing Chemicals	EN 232/Prima ND 500
Run length	Medium to long run

Cross-section of :Zenith N555 negative plate (computer generated)

Unique graining and anodizing ensuring high quality results in the plateroom and the pressroom.

Micro-particles on the coating provide the plate with excellent vacuum assist properties during film to plate exposure.
